ABOUT ME

I am a computer engineer with training in artificial intelligence and specialization in interface design. I combine programming and web development with a strong visual sensitivity, creating user-centered solutions. Currently, I develop web projects while continuing to train in emerging technologies such as machine learning and data science.

WORK EXPERIENCE

Web , AWS and AI design, freelance
Jan 2024 - Present

- Websites and plugins for WooCommerce and Amazon, customized with Amazon Web Services platform

Web Developer, Conecta Software
Jan 2023 - Dec 2024

- Development of websites with PHP and CMS like WordPress and PrestaShop.

Frontend Developer, Empatica.net
Jan 2021 - Dec 2023

- Development of interfaces with HTML, CSS, JavaScript, and React.
- Projects in WordPress and PrestaShop with a focus on UX/UI.

Web Designer - freelance
Jan 2016 - Dec 2021

- Comprehensive web development as a freelance professional, focusing on front-end technologies like HTML, CSS, JavaScript, React, and Angular.
- Design of modern interfaces.

Back-end and Frontend Development, Crealogica
Jan 2011 - Dec 2013

- Development of web applications focused on the back-end, using PHP and MySQL.
- Design and maintenance of optimized databases to ensure efficient application performance.
- Collaboration in integration with web services and basic front-end structures.

EDUCATION

Professional program in artificial intelligence and data science, Universidad Internacional de la Rioja (UNIR)
2025
Program focused on the development of skills in artificial intelligence, machine learning and data science

Specialization in Interface Design, Universitat Oberta de Catalunya (UOC)
2019

- Specialization in user-centered design and user experience (UX).
- Development of interactive, accessible, and optimized interfaces for technological applications.

Bachelor's Degree in Computer Engineering, Universitat Oberta de Catalunya (UOC)
2015

- Training in computer science fundamentals and software development.
- Final Degree Project focused on Artificial Intelligence techniques.

Higher Technician in Computer Applications Development
2011
