

ABOUT ME

Computer engineer with training in artificial intelligence and specialization in user-centered interface design (UX/UI). I combine programming and web development with a strong visual orientation, creating functional, accessible, and aesthetically coherent digital solutions. Currently working on web project development while expanding my experience in machine learning, data science, and emerging technologies.

EDUCATION

UNIVERSIDAD INTERNACIONAL DE LA RIOJA (UNIR)
2025

Professional Program in Artificial Intelligence and Data Science

- Program focused on developing skills in artificial intelligence, machine learning, and data science

UNIVERSITAT OBERTA DE CATALUNYA (UOC)
2019

Specialization in Interface Design

- Specialization in user-centered design and user experience (UX).
- Development of interactive, accessible, and optimized interfaces for technological applications.

UNIVERSITAT OBERTA DE CATALUNYA (UOC)
2015

Bachelor's Degree in Computer Engineering

- Training in computer science fundamentals and software development.
- Final Degree Project focused on Artificial Intelligence techniques.

WORK EXPERIENCE

CONECTA SOFTWARE
Jan 2023 - Dec 2024

Web Developer

- Development of websites with PHP and CMS like WordPress and PrestaShop.

EMPATICA.NET
Jan 2021 - Dec 2023

Frontend Developer

- Interface development with HTML, CSS, JavaScript, and React.
- Projects in WordPress and PrestaShop with a focus on UX/UI.

Jan 2016 - Dec 2021

Web Designer - freelance

- Comprehensive web development as a freelance professional, focusing on front-end technologies like HTML, CSS, JavaScript, React, and Angular.
- Design of modern interfaces.

CREALOGICA
Jan 2011 - Dec 2013

Back-end and Frontend Development

- Development of web applications focused on the back-end, using PHP and MySQL.
- Design and maintenance of optimized databases to ensure efficient application performance.
- Collaboration in integration with web services and basic front-end structures.
